

The author(s) transfer(s) the copyright to his/her article to Springer-Verlag effective if and when the article is accepted for publication. The copyright covers the exclusive and unlimited rights to reproduce and distribute the article in any form of reproduction (printing, electronic media or any other form); it also covers translation rights for all languages and countries. For U.S. authors the copyright is transferred to the extent transferable.

Manuscripts are accepted for consideration on the understanding that submitted papers have not been published and will not be published elsewhere without the publisher's permission.

Manuscripts must be accompanied by the "Copyright Transfer Statement".

Papers should be prepared using 12pt font size. Four copies of every manuscript should be submitted to one of the Managing Editors.

Electronic submissions of manuscripts speed up the editorial process. They should be submitted under the form of a single postscript (.ps) or pdf file, compressed in .zip format, as an e-mail attachment, by the corresponding author.

When preparing manuscripts for the journal, please note the following points:

1. Form and content of the **manuscript** of the accepted paper should be carefully checked to exclude the need for later corrections. Any sub-sequent changes in the text will be charged to the authors.
2. The **first manuscript page** should provide the title, names of all authors, names of institutes or firms, footnotes to title pages, and e-mail and postal address to which proofs should be sent.
3. Papers must be written in either consistent British or American English and be preceded by a short **abstract**, which should not exceed 12 lines, a list of 3–5 **key words**.
4. **Acknowledgements** and information on grants received can be given in a first footnote which should not be included in the consecutive numbering of footnotes.
5. **Footnotes** should be avoided.
6. **Figures** are to be numbered consecutively and should be available in electronic form (eps).
7. **Tables** are to be numbered separately from the illustrations and each table should have a short title.
8. Important **formulae** (displayed) should be numbered consecutively throughout the manuscript as (1), (2), etc. on the right-hand side of the page.
9. The list of **references** should include only publications cited in the text. The

references should be listed in alphabetical order under the first author's name. Text citations should use the author(s) (year) style.

10. **Page proofs** are to be sent to the author(s). Corrections should be limited to printer's errors, since the costs involved in making any other alterations are substantial and may be charged to the author. When returning proofs, the author(s) must agree to transfer copyright of the manuscript to the publisher.

Authors who prepare their papers with Word can receive macropackages under <http://www.springer.de/author/journals/journals.html>

Authors who prepare their papers with TeX are encouraged to ask for Springer-Verlag's TeX macro-packages, called Pjour1 (plain TeX) and SVJour (LaTeX), either by letter to Springer-Verlag or electronically via:

After the manuscript has been accepted by the editor(s), the author should submit to one of the Managing Editors a disk containing the text in final form as well as any additional macro definitions he has used, together with a printout for reference. It is essential that electronic source version and hard copy, or the readable .pdf of .ps version are identical. The production time for papers submitted in this form can be reduced considerably.

One complimentary copy is supplied for each author. Twenty-five (25) offprints of each contribution are provided free of charge. Orders for additional offprints can be placed by returning the order form with the corrected proofs. When the author orders additional offprints, he is entitled to receive a pdf file of his article for his own personal use.
